Mine Workers Left to Care for Coal Properties Desert Posts and Leave Mines to Fill up with Water

MEN ARE LEAVING POSTS

Workers Hold a Mass Meeting; Engineers and Pump Men Quit.

BOSSES FILL PLACES

Walkout Protest Against International Action Under Lewis.

DUQUOIN, Ill., Nov. 13.—Complaining with an order issued by local union miners, following a mass meeting of members of the United Mine Workers of America, all holding engineers, firemen, pump men, mule feeders and other union men who have been permitted to keep the mines in the Twelfth district in working order, left their posts last night.

The mine superintendents, managers, top foremen, assistant bosses and office clerks were immediately called upon to fill the place of the men who had quit.

When this is a violation of the injunction granted the government by Federal Judge Anderson at Indianapolis was not generally known among either operators or miners, owing to the fact that the call was made at a mass meeting and not directly by officers of Duquoin miners.

UNPRECEDENTED PROSPERITY IN UNITED STATES

NEW YORK, Nov. 13.—Unprecedented prosperity is indicated in statistics from the office of the collector of the port of New York, which show an increase in luxury imports of 125 per cent over a year ago.

Duties on 27 articles on the luxury list ranging from toys to ostrich feathers, totalled \$57,684,446 for the three months ending September 30—and that despite a liberal exemption on dutiable goods allowed to returning soldiers.

The demand for necessities also has increased but not to the same extent. The total revenue for the three months amounted to \$224,548,782.

NATION HONORS DEAD

Soldiers and Sailors Who Gave Up Lives in Russia Eulogized.

SERVICE AT HOBOKEN

Senator Voices Official Welcome Home to First Company of Dead.

NEW YORK, Nov. 13.—In the chill of a November rain, the nation accorded honors today to the first of its heroic dead brought back from world war battlefields. On a flag-bedecked crepe draped army pier in Hoboken the bodies of 103 American soldiers who gave up their lives in northern Russia and of 10 sailors who died with the navy's forces in "farthest north" waters, received their benediction. Their coffins had been swung ashore in rope nets, one by one from the little transport, Lake Parag, last midnight when the funeral ship arrived from Brest.

Eighteen long rows of caskets, each draped with an American flag and decked with autumn flowers, gave silent testimony to the supreme sacrifice of the country's fighting men beyond the seas. The congress of the United States, the army, navy, American Legion, the state of Michigan where most of the heroes lived, and the city of Detroit, all joined in honoring them. With the official representatives stood a little group of relatives of the dead. Floral tributes and a representation from the Russian embassy acknowledged gratitude to the American soldiers who fell in Russia in the cause of humanity.

Band Plays Hymns.

While rain pattered on the pier shed the services began with "Lead Kindly Light," played by the 13th infantry band and the reading of the 23rd psalm, "The Lord Is My Shepherd."

Governor Stever of Michigan, in an address, read by Major Ralph Duff, paid his tribute to the fallen.

"These all died in the faith," he said. "They died in the faith that government of the people, by the people, for the people is best; that the flag is worth fighting for; that our country, dedicated to righteousness and consecrated to freedom is worth living for."

"It is for us, the living so to live, so to play our parts as citizens of our several states and as citizens of this great republic, that we may be accounted worthy of the great sacrifices these dead have made for us."

GRANGE TO KEEP INTACT

Will Form No Alliance With Federation of Labor.

MERGER IS OPPOSED

Purposes, Activities and Aspirations Conflict With Union Labor.

GRAND RAPIDS, Mich., Nov. 13.—The National Grange will form no alliance with organized labor, in the opinion of the National Master Oliver Wilson, and, if his prediction is fulfilled, the grange in convention here, will vote to decline an invitation extended by Samuel Gompers for such a union.

The matter will be presented probably early next week at one of the secret sessions and be referred to a committee which will recommend action by the convention.

"I cannot, for my part, see that such an alliance would be of any benefit to the grange," said Mr. Wilson today. "On the contrary, there seems to be many reasons that are reasons why we should shun any merger. However, that is a question which will have to be passed on by the grange as a whole."

Similar opinion was expressed by S. J. Lowell, member of the executive committee from Fredonia, N. Y.

"The purposes, the activities and the aspirations of the National Grange seem to conflict at too many points with those of union labor," said Mr. Lowell. "I cannot see how any alliance could be harmonious. There are some things on which we could agree, perhaps, but on many other questions we are miles apart."

The grange began its second day of activities with the hearing of reports of state organizations and other routine matters.

The message is interpreted here as a hint at operations in the direction of British India.

GRAFT STORIES DENIED

Former Head of Aircraft Production Defutes Charges.

WASHINGTON, Nov. 13.—Denial of accusations contained in a telegram sent to Secretary Baker by Representatives Fear, Wisconsin, and Magee, New York, majority members of the house subcommittee investigating aircraft expenditures, was made today by John D. Ryan of New York, former second assistant secretary of war, who had charge of aircraft production during the war.

The Fear-Magee telegram charged that a railroad from Lake Pleasant to Crescent Lake, in the state of Washington, cost the government \$115,000 per mile and represented a total expenditure of \$4,900,000.

"This expenditure referred to," the Ryan statement said, "covered not only the cost of the thirty-six miles of main railroad but also all expenditures made in connection with terminal facilities, yards, sidetracks and appurtenances of every kind except rolling stock, which went into the construction of the railway and constituted a part thereof."

The telegram also charged that "further investigation may disclose conditions upon which a recovery can be had against John D. Ryan and others who are responsible for this wasteful expenditure of public funds."

Replying to this Mr. Ryan stated "It is probably the first time in history that the majority of a committee vested with judicial authority, not only indulged in accusations which were unfounded, but endeavored to bolster public opinion in the impression that there had been a grave dereliction of duty by engaging in prophecy."

The report received from Sir George Clerk, the allied commissioner to Budapest, was considered as showing that political conditions in Hungary were much improved and that there were indications of a coalition government being organized shortly in Budapest with which the peace conference could deal.

Another subject taken by the supreme council was the elections recently held in Silesia. A note to Germany was framed advising it to disregard these elections. A special delegate of the Rumanian government has been sent here to present the demands.

A portion of the material has already been returned to its original owners through the efforts of a commission appointed by Turkey to investigate the Rumanian claims. The legal ownership of certain machinery claimed, however, is asserted by its Turkish possessors, who have produced papers to show that they bought it from the Germans.
